ASSIGNMENT 25 April – 01 May 2006

On Tuesday, 25 April 2006, you should open the weekly home page on the course website (http://courses.dce.harvard.edu/~envre105/lectures.htm). The narrative for this week is entitled, “Leveraging Sustainable Behaviors with Stakeholders.” Please read the narrative. You may wish to explore some of the Internet links provided in the footnotes. You will continue to work with your classmates to find ways to integrate the content and find a path to sustainable development for the organization that you are considering in your semester paper.

There is NO case this week. There will be a folder placed on the discussion board that you can use in a voluntary fashion to get to better understand the topic. This may be helpful since you will need to include it within the semester paper. You will NOT be graded on this discussion. You could just choose to spend the extra time working on your semester paper instead of discussing the content with you colleagues in the class. It is up to you! Should you choose to use the discussion board, you should complete your discussion on the case by Sunday, 30 April 2006. The class will be discussing this information and your ideas in the summary discussion on 01 May 2006.

The semester report/project is due on Monday, 8 May 2006. Details can be found in the Guide. We hope that the extra time provided by dropping the case for this week will be helpful to get you to a final draft of your semester paper. Please do not forget to include this week’s topic in your paper.
